

COMPANY OVERVIEW

Founded in 2009 by Donald and Pamela Martin in Jackson, Mississippi, **Martins Specialized Services LLC** is a trusted provider of comprehensive infrastructure and logistical solutions. With over a decade of proven experience, we specialize in civil engineering, excavation, paving, debris removal, and secured delivery services across both the private and public sectors. Our company is known for its agility in responding to complex challenges, including disaster relief and emergency response efforts. We combine technical expertise with a customer-first mindset, delivering high-quality, innovative, and cost-effective services tailored to meet the evolving needs of our clients across the continental United States.

CORE COMPETENCIES

- **Civil Engineering & Infrastructure Development:** Skilled in the planning, design, and execution of public works and site development projects, ensuring compliance with safety, environmental, and regulatory standards.
- **Excavation, Grading & Paving Services:** Precision earthwork, grading, and surface preparation for roads, lots, and construction-ready sites, with expert asphalt paving and maintenance.
- **Asphalt Services:** Comprehensive asphalt installation, resurfacing, repair, and striping for commercial, residential, and government projects.
- **Debris Removal & Land Clearing:** Efficient post-construction and disaster-related debris removal, site cleanup, and environmental clearing for project readiness.
- **Specialized Material Handling:** Safe and secure transportation and handling of construction materials, heavy equipment, and sensitive cargo.
- **Disaster Relief & Emergency Response:** Rapid mobilization capabilities to support state and federal agencies during natural disasters, emergencies, and recovery operations.
- **HVAC & Plumbing Services:** Installation, maintenance, and repair of HVAC and plumbing systems for commercial and government facilities.
