

CAPABILITY STATEMENT

COMPANY OVERVIEW

Hanalyx LLC is a Minority-Owned, Service-Disabled Veteran-Owned Small Business (SDVOSB) headquartered in Hanover, Maryland. We deliver cutting-edge IT and cybersecurity solutions tailored to federal, state, and commercial clients. Our expertise spans SaaS development, cloud modernization, containerization, infrastructure automation, and cybersecurity compliance. Hanalyx supports mission-critical operations for agencies such as the U.S. Army, DHS, FBI, and commercial leaders like AT&T Cybersecurity, employing Top Secret cleared personnel to ensure the highest standards of security and innovation. We are dedicated to providing scalable, secure, and innovative technology solutions aligned with government and enterprise objectives.

CORE COMPETENCIES

- **Cybersecurity & Compliance:** Proven expertise in NIST, DoD STIG, and FedRAMP standards, delivering reliable security for federal and commercial IT environments.
- **SaaS Development:** Designing scalable, secure SaaS applications with lifecycle management and ongoing improvements.
- **Cloud Modernization:** Architecting flexible multi-cloud solutions using AWS, Google Cloud, and Azure for optimal performance.
- **Containerization & Orchestration:** Deploying and managing containers with Docker, Podman, and Kubernetes to enhance scalability and resilience.
- **Infrastructure Automation:** Automating IT operations with Ansible and Red Hat Satellite to improve efficiency and security.
- **Systems Integration & Mission Support:** Integrating complex systems and providing dependable mission-critical support.
- **Managed Services & Veteran Leadership:** Offering managed IT services through a veteran-led team focused on innovation, security, and client success.

PAST PERFORMANCE

Hanalyx has consistently delivered secure, compliant IT and cybersecurity solutions to major clients such as the U.S. Army, Department of Homeland Security, FBI, and AT&T Cybersecurity. Our expertise includes optimizing cloud infrastructures, providing multi-agency Linux engineering and cybersecurity support, maintaining critical data analytics and simulation platforms, and automating system patching to improve efficiency and regulatory compliance. This proven track record ensures reliable, high-performance solutions that support mission success in complex, high-security environments.

DIFFERENTIATORS

- **Veteran-Owned SDVOSB Status:** Qualified as a Service-Disabled Veteran-Owned Small Business, providing agencies access to set-aside contracting and mission insight.
- **Proven Federal Cyber Expertise:** Deep understanding of Army, FBI, and DHS cybersecurity requirements, minimizing onboarding time and risk.
- **Security-as-Code Automation:** Automated scripting of NIST/STIG controls reduces audit workloads and speeds Authority-to-Operate (ATO) approvals.
- **End-to-End DevSecOps Delivery:** Single-team approach covering strategy to sustainment eliminates vendor hand-offs and streamlines delivery.
- **Cloud-Native, Vendor-Agnostic Designs:** Flexible architectures run on AWS, Google Cloud, or on-premises, avoiding vendor lock-in and enabling rapid scaling.
- **User-Centric, Mission-Focused Design:** Solutions built with human-centered design improve adoption, reduce support tickets, and enhance engagement.
- **Veteran Leadership Culture:** Shared service ethos drives strong agency partnerships and commitment to operational excellence.
