

INSTITUTE FOR AMERICAN POLICY AND STANDARDS INNOVATION
ADAPTIVE SOLUTIONS FOR COMPLEX PROBLEMS

CAPABILITY STATEMENT

COMPANY OVERVIEW

The Institute for American Policy and Standards Innovation (IAPSI) is a Service-Disabled Veteran-Owned Small Business specializing in cutting-edge research, training, and advisory services that help government and commercial clients address emerging security threats. With expertise in Counter-Unmanned Aircraft Systems (C-UAS), cybersecurity, AI-driven threat detection, and cognitive warfare, IAPSI delivers customized solutions that enhance operational readiness and mission success. Backed by a team of former senior military leaders and special operations experts, IAPSI serves over 55 agencies with practical instruction and strategic guidance on drone risk mitigation, digital forensics, and compliance with federal security frameworks, enabling clients to anticipate and outmaneuver threats across all domains of conflict.

CORE COMPETENCIES

- **Autonomous Systems:** Expertise in training and threat mitigation for Unmanned Aircraft Systems (UAS) and drones, focusing on detection, interdiction, and asset protection.
- **Leadership and Management Coaching:** Training and workshops to develop agile doctrines, tactics, and leadership skills addressing evolving security threats.
- **Cognitive Warfare Strategy:** Knowledge in unconventional conflict methods aimed at influencing and manipulating adversary decisions.
- **Cybersecurity and Artificial Intelligence:** Providing cyber and AI solutions, including digital forensics, incident response, and compliance with federal cybersecurity frameworks.
- **Thought Leadership:** Bridging knowledge gaps by enhancing strategic, operational, and tactical readiness across conflict domains through research and education.
- **Change Management:** Developing doctrines, tactics, tools, and procedures to help organizations adapt to emerging threats and dynamic security environments.
