

# CAPABILITY STATEMENT

## COMPANY OVERVIEW

**FURY, LLC**, founded in 2019 and based in Orlando, Florida, is a premier provider of security and technology solutions specializing in low voltage systems. The company delivers customized services in the installation of security cameras, access control systems, Wi-Fi solutions, distribution antenna systems (DAS), network infrastructure, lift gates, and audio/visual setups. Serving commercial, government, and industrial clients across the Southeastern United States, FURY, LLC is dedicated to providing cutting-edge technology, high-quality installations, and exceptional customer service. With over 10 years of industry experience, the company ensures seamless integration and operational efficiency, building lasting relationships with clients and offering tailored solutions for their security and infrastructure needs.

## CORE COMPETENCIES

- **Security Cameras:** Installation of indoor and outdoor security cameras with point-to-point networking.
- **Wi-Fi Solutions:** Comprehensive Wi-Fi installation, including access point configuration for seamless connectivity throughout buildings.
- **Distribution Antenna Systems (DAS):** Specialized systems for public safety and first responder communication.
- **Network Infrastructure:** Installation of access points, data drops, and secure network wiring for reliable connectivity.
- **Lift Gates:** Professional installation and programming of various types of lift gates for secure access control.
- **Audio/Visual Systems:** Design and installation of surround sound, intercoms, music systems, and lighting setups to enhance audiovisual experiences.
- **Access Control Systems:** Design and installation of secure access control systems to manage entry points and enhance building security.
- **Fiber Optic Systems:** Installation and maintenance of fiber optic cabling for high-speed, reliable data transmission.
- **Surveillance Integration:** Integration of CCTV systems with other security technologies for comprehensive monitoring and threat detection.
