

# CAPABILITY STATEMENT

## COMPANY OVERVIEW

**REME Healthcare Corp**, based in Oklahoma City, is a trusted provider of primary care, transitional care management, and telehealth services. We deliver high-quality, patient-centered care through home visits and virtual consultations, helping individuals manage chronic conditions, recover from acute illnesses, and prevent unnecessary hospitalizations. With extensive experience in chronic disease management, collaborative care coordination, and healthcare continuity, we are dedicated to improving health outcomes and enhancing quality of life. As an Oklahoma-certified Women Business Enterprise (WBE), REME Healthcare is committed to compassionate, accessible, and efficient healthcare solutions that meet the needs of patients and government partners alike.

## CORE COMPETENCIES

- **Primary Care & Preventive Services:** Complete primary care, wellness visits, and preventive screenings to promote long-term health.
- **Telehealth & Home Visits:** Convenient telemedicine and in-home care, ensuring access and continuity.
- **Chronic Disease Management:** Expert management of diabetes, hypertension, heart failure, COPD, thyroid disorders, and obesity to reduce complications.
- **Transitional Care Management:** Coordinated post-hospital care to support recovery and prevent readmissions.
- **Acute & Urgent Care:** Treatment for infections, abdominal pain, respiratory issues, anxiety, depression, allergies, and fatigue.
- **Medication Management:** Refills, adjustments, and monitoring to improve treatment adherence.
- **Collaborative Care:** Seamless coordination with nurses, practitioners, and specialists for comprehensive support.
